PATENT PENDING CONCEALED LOCKING SYSTEM PCT/EP2018/073654

I-TIS by ProGame Tatami by Trocellen is a brand new product, the result of the evolution of the previous TIS concept.

is the perfect tatami for every type of activity. The installed area also does not require containment frames.

Every feature of the I-TIS judo tatami mat is innovative and revolutionary. **Approved by the International Judo Federation, it has been recognized as a product suitable for any type of competition: from regional to Olympic tournaments.**

Thanks to its extreme lightness, it is easy to install, without leaving gaps between mats and preventing shifting, which happens with traditional tatami mats. The guaranteed safety of this mat and its innovative concealed hooking system make it the safest and most stable tatami on the market, ideal for any type of event.

Its patent pending hooking system keeps the mats firmly joined together during performance: the approved I-TIS IJF mat
